PROFESSIONAL SUMMARY

Information Systems student at UPN “Veteran” Jakarta with a 3.89/4.00 GPA and hands-on experience in frontend and mobile development using React Native, Vue.js, and JavaScript. Experienced in developing application features, integrating RESTful APIs, implementing authentication, and working with MySQL and Firebase. Strong leadership and communication skills demonstrated through experience as a Database Systems Laboratory Assistant and Head of Public Relations.

TECHNICAL EXPERIENCES

Programming Language : C, JavaScript, HTML, CSS, PHP

Frontend/Mobile: React Native, Vue.js, Expo, React.js

Backend/API: Node.js, REST API, JSON

Operating System : Windows and Linux

Database : MySQL, Firebase, PostgreSQL

Software : Visual Studio Code, IDEA, Android Studio.

Design Tools : Figma

Other Tools : GitHub and Google Colab

EDUCATION

Faculty of Computer, UPN “Veteran” Jakarta
Associate Degree (D3) in Information Systems

August 2024 – Present
Major GPA : 3.89/4.00

RELEVANT EXPERIENCES

Laboratory Assistant — Database Systems

Faculty of Computer, UPN “Veteran” Jakarta

February 2026 - Present

- Guided approximately 30 students during lab sessions focused on relational database concepts using MySQL.
- Explained basic topics about MySQL and important concepts such as DDL, DML, ERD, normalization, and table relationships.
- Assisting lecturers in creating learning modules used during practical sessions.
- Assessed project-based assignments and practical exams, providing both technical and conceptual feedback.
- Providing assistance during practical exams and ensuring academic integrity during the practical sessions.

PROJECT EXPERIENCES

Halal Tracker App

- Developed a mobile application for tracking daily activities and visitation targets using React Native.
- Implemented global state management with Context API and useReducer to efficiently manage application data.
- Integrated RESTful APIs to retrieve and display dynamic user and product data from the backend.
- Designed modular and reusable components to improve code maintainability and scalability.

Technologies used : React Native, JavaScript, React Hooks (useState & useEffect), Context API, useReducer, JSON, and RESTful API.

FleetGo

- Developed a fleet booking system supporting role-based workflows for customers, approvers, administrators, and drivers.
- Implemented booking workflows that allow customers to submit requests while approvers review and process requests before operational handling.
- Developed frontend interfaces using Vue.js and integrated them with a Node.js backend through JSON-based RESTful APIs.
- Implemented token-based authentication and protected routes to restrict access based on user roles.

Technologies used : Vue.js, JavaScript, HTML, CSS, Node.js.

ConnectSphere

- Developed a social networking application with Firebase Authentication supporting email and Google Sign-In.
- Implemented social features including posts, image sharing, likes, comments, following, private accounts, and user search.
- Developed real-time one-to-one messaging with typing indicators, read receipts, reactions, replies, and media sharing.
- Implemented Firebase Cloud Messaging for push notifications and Firestore for data persistence and offline support.

Technologies used : React Native, Expo, Firebase.

ORGANIZATION

Head of Public Relation, BEMF-IK UPN “Veteran” Jakarta

January 2026 - Present

- Lead the PR department to develop strategic communication plans and maintain a positive organizational image.
- Establish external partnerships with other student organizations and external institutions.
- Manage official communications, including handling correspondence and broadcasting public announcements.
- Coordinate preventive workflows to address and resolve communication challenges within the student body.

Head of Public Relation, FIK FAIR 2026

January 2026 - Present

- Direct promotional campaigns and media outreach to maximize the visibility of FIK FAIR 2026.
- Manage the invitation and onboarding process for international webinar delegates, official guests, and committees.
- Collaborate with external partners to secure strategic collaborations and expand event media coverage.

Staff of Public Relation, BEMF-IK UPN “Veteran” Jakarta

January 2025 - January 2026

- Maintain communication networks to bridge relations between the organization and external stakeholders.
- Draft and distribute official broadcast messages, invitations, and announcements to target audiences.
- Support the department head with administrative tasks and the execution of various PR work programs.
